Feb. 25, 34.

I understand that Dr. Svend Ranulf is applying for a grant to enable him to continue his researches in London. I have much pleasure in supporting his application. From what I have seen of Dr. Ranulf's work and the impression I formed of him when he attended my seminar here, I feel convinced of the value of his work and that it would be a great pity if he were prevented from completing it for lack of funds. I trust therefore that the Foundation may see its way clear to giving him the help he asks for.
