I denne tid formentlig læser Gustaf Munch-Petersen Artur Lundkvists *Atlantvind* og noterer et par udtalelser af ovennævnte Eugène Jolas, som Lundkvist citerer: XIX only by remaining a poet can he go on throwing disorder and terror into the rank of his contemporaries, live brutally against the moral feeling of his age and destroy with lyric blast the structure of his society. he must never waver in rejecting the order into which he was born, in opposing the horizontal trusts, the machine-mind, the laws imposed by cretins and psychopaths.
