Candidates for tenure appointments at Yale are expected to stand in comparison with the foremost leaders in their fields throughout the world. Our final recommendation will be based primarily on the prospects that a candidate will continue to make distinguished contributions to the advancement of knowledge. The candidate's qualities and promise as a colleague, university citizen and especially as a teacher are also very important considerations. While recognized achievements to date are essential in estimating accomplishments, we are prepared to consider all evidence of the potential for significant achievement in the case of scholars at earlier stages of their careers.
